

OUTDOOR & INDOOR SHOOTING RANGE EQUIPMENT

# BALLISTIC PANEL RIKO-PLANK

## FEATURES

STAPP® Ballistic Panel Riko-Plank is made from recycled and recyclable High-density Polyethylene (HDPE) which gives it superior ricochet-stopping and all-weather characteristics.

High-energy projectiles penetrate the planking, making a small hole that partially closes instantly, stopping any ricochets.

STAPP® Ballistic Panel Riko-Plank is developed and perfected for the harsh Swedish climate, giving it superior all-weather characteristics and longevity

## APPLICATIONS

STAPP® Ballistic Panel Riko-Plank provides ricochet protection on all hard surfaces on all STAPP® Environmental Bullet Catchers and is a superior alternative to wood and similar materials commonly used to cover surfaces, fixtures and fittings at shooting ranges.

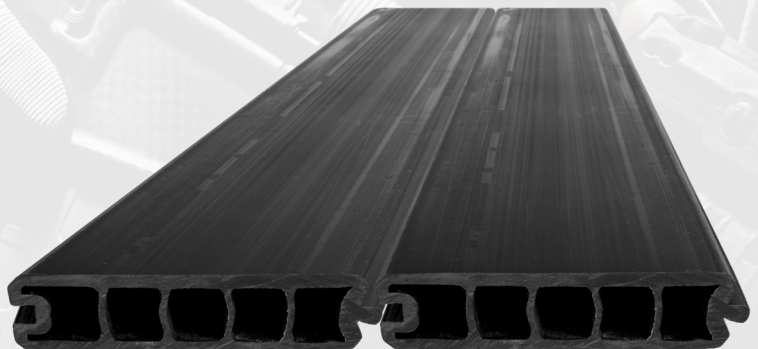

## BENEFITS

- Safety
- Environmentally friendly
- High performance
- Long service life
- Low life cycle cost
- Superior all-weather characteristics

## TECHNICAL SPECIFICATIONS

**Material:** Recycled HDPE

**Colour:** Black
